

A clarifying question was submitted, please find it below along with the reply.

Question:

I would love to submit a design proposal. Is there someone whom is going to do the design in tile or is the artist whom submits the design responsible for the actual application of the tiles on the wall?

Answer:

Thank you for your email and interest in submitting a proposal.

The artist will be responsible for the design of the mural, not the installation, that will be completed by another party.
